

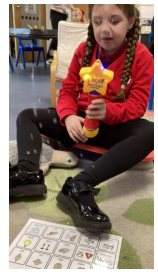
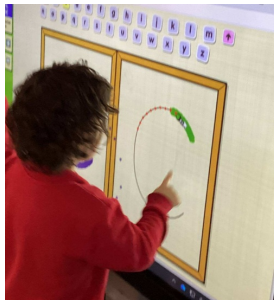
Our week in Bumblebees 13.11.26





Throughout the week the children in Bumblebees always have access to lots of different ways of learning and exploring through play. Sometimes these experiences are part of a group led and supported by an adults. Often activities are ones that the children have chosen themselves when the adults can join in with their play and support the children through lots of lovely positive interactions. This week we have been focusing on counting and number sense as part of mathematical learning and cause and effect using our super powers to make things start, stop, spin and move. Here are some pictures of the children enjoying learning in lots of different ways.

Have a great weekend, Mrs Shannon, Mrs Clarke and the Bumblebee team. xx
