

*In my play and leisure this week we have been exploring building. The children loved building with the blocks, cups and Lego, they especially loved knocking them all down!*

*In my dance we have been exploring colours and painting by Mondrian, Klee and Miro. The children had to learn different moves to the colours and then dance to them on the colours on the floor.*

*In my topic we have continued to explore food. The children have been using their senses to explore herbs, spaghetti and popcorn. The children also enjoyed having pancakes on pancake day.*

Have a lovely weekend, Mrs Clarke and the class 9 team 😊
