Class 4

In my topic this week Class 4 have been using foods to make different sounds. We have used pasta and rice to experience the different sounds they make. Class 4 recognised that the heavier the item the louder the sound which was the aim! During outdoor school this week we challenged the children to identify their favourite tree. We got valuable language from this, asking the children why it was their favourite and to give a description of the tree.

In Literacy we have moved on to a book called 'Monsters don't eat broccoli'. The children have found the language in the book extremely catchy and have enjoyed joining in with activities. We have been designing our own monsters, colouring our monsters with broccoli which the children loved.

In My Wellbeing this week we have moved on from our bedrooms looking into what items belong in a kitchen. This linked well with cooking as children recognised the items that belong in a kitchen from the cooking lessons.

We hope you have a great weekend and see you all on

Monday 😊
