

Class 2 News

This week Class 2 have been learning about different kinds of transport as part of our Going Places topic. We have enjoyed learning the names of different kinds of vehicles, sorting them in to land, sea and air and picking our favourites. We learned how vehicles move safely and how it is important for the drivers to be able to STOP and GO to keep safe. We all picked our favourite vehicle using information books to help us and designed and made a vehicle headband using lots of careful cutting and colouring. After that we took them outside for a test drive and had to wait for the STOP and GO signals to move! Great work Class 2, you all passed your driving test brilliantly! Have a great weekend, Love Mrs Shannon and the Class 2 team.
