

Welcome

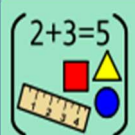

Hello and welcome to this week's news from the hub!

We have had a fabulous time this term, and we are so proud of the children and the amazing progress they have made. Everyday they come into school with a smile on their faces and a willingness to learn as they transition between hub and their link classes.

**Well done everyone!!**

This week in literacy, the children have continued to discuss capital letters and their place within the alphabet. We achieved this by identifying upper case letters by their letter names and lower-case letters by their letter sounds. The children then used this knowledge to identify and edit a short text for the correct use of capital letters at the start of each sentence and for proper nouns- names and places.

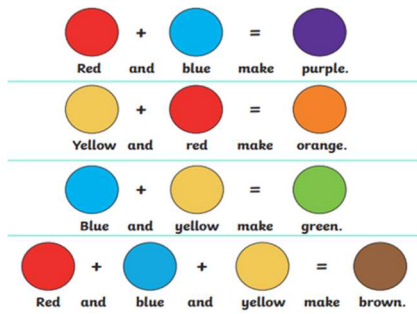

Maths

In maths, we have been using a range of strategies to help us to know and remember more, when working with money. This has helped us to complete our end of unit quizzes with growing confidence.

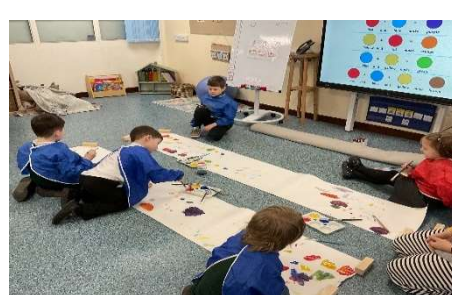

The children have really enjoyed their Forest school rotation this term. They have shown true resilience when working in very wet and muddy conditions, and they have all grown in confidence when using the rope swing. This week, the children thought about what they had already learnt about birds and what birds use to build their nests. They then thought carefully about what humans would need to build a shelter in the wild, before building and adding to the shelter in Forest school.

This week in art, the children shared their previous knowledge of the three primary colours. They then used a range of media, including, crayons, chucks, pastels and paints to mix and make a set of secondary colours.

This week we have enjoyed following a set of instructions to make our own chocolate biscuits. We crushed, mixed and shaped our mixture to make and decorate biscuits to take home. The children then used this experience to write their own set of instructions, using time connectives.

In Computing this week, the children engaged in a session covering 'Safer Internet Day 2026' with a focus on 'Smart Tech'. The children discussed a wide range of devices and technologies used in school and at home. They explored how to use it safely and responsibly and why it's important to **stop, think** and **talk** to a trusted adult, so they can help you make safe choices when online.

#### STOP

Stop using the device, app or technology immediately.

#### THINK

Does it seem right?  
Does it seem true?

#### ASK

If you're not sure, talk to a trusted adult.

### Our Hub Celebrations!

Cool kids dressed and posing for Mufti Day!

Avery receiving her Head teacher award for working hard and being a kind friend. While Joshua was crowned King of the week in Music, for singing using the micro phone in his link class! **WOW!**

We really have had an amazing term here at the hub and we would like to wish you all a lovey half term of making memories with your family and friends. Please share your adventures on dojos ready for the children to share with their peers on their return to school on **Monday 23<sup>rd</sup> February**.

Thank you

for all

your hard work!
