

Newsletter 6th March 2026 Class 3

*This week in class 3 the children have enjoyed reading the story *The Cuddly Cow*. We watched a video of some children working on a farm helping to feed and milk the cows and then the children labelled a cow.*

They have been doing lots of counting activities in Numeracy. They did some practical activities, worksheet work and also played some great interactive games on the Ipad using Topmarks.

In our topic lesson we have been thinking about animals and where they live; either on the land, sky or sea and the children completed a sorting activity and then enjoyed exploring activities that included the farmyard with the cows and pigs etc, the sea with all the fish, sharks and jellyfish and the jungle with the lions, parrots and elephants.

The weather has been so lovely this week and the children were super excited to go outside in the sunshine and do a scavenger hunt looking for signs of spring. They had to find a variety of photographs and tick them off on their laminated sheet. They worked with a partner and were really brilliant at teamwork.

Mrs Wilson brought some lovely new toys from her house for us to play with and we worked really hard at sharing.

In the outdoor school the children continued with the theme of Spring and created their own 'Blossom Stick'.

Enjoy the weekend
