

# Newsletter 13th March 2026 Class 3

The children in class 3 have had a very busy week. They have continued to read the story 'Cuddly Cow' and all their work in Literacy and Numeracy has been linked to farm animals. They have sorted animals by a given criteria and counted groups of animals too. They have also used the names of animals such as cow, pig, duck, cat, dog and have been blending and segmenting in order to read and spell these words.

The children had a really brilliant PE lesson this week where we explored gymnastics. One pupil said it was 'The best PE lesson ever!' and I am inclined to agree with him. All of the children were engaged and stayed on their mats and tried their best. It really was brilliant.

The children have been learning about the Hindu festival of Holi. The children made rangoli patterns in Numeracy and went on a scavenger hunt to find photographs that displayed pictures of Holi. The best activity of the week was drawing around each other and then using these silhouettes when we joined together with other classes to have our own version of a colour run.

Have a super weekend. Happy Mother's Day to all the Moms.
