

Class 8

20.3.26

Literacy

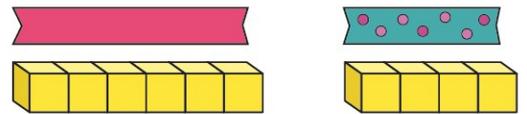

In literacy we have continued reading our story *Wind in the Willows* and have been designing the outside and inside of Toad Hall for Mr Toad. We also had lots of fun using a range of building resources such as wooden blocks, Lego, junk modelling etc. to construct our Toad Hall designs.

Numeracy

In Numeracy some of us have been working on length and height. We have been:

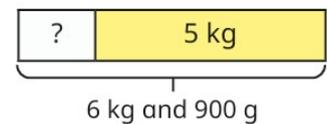

- ◆ Comparing lengths or heights
- ◆ Measuring length and height using objects

- ◆ Measuring length in centimetres

Some of us have been working on mass and capacity and have been:

- ◆ Adding and subtracting mass

Topic

In topic we have been exploring the concept of air resistance and have been outside with a piece of paper looking at how it moved and feeling the effects of the air pushing against it. We also planned and conducted an experiment to investigate how air resistance can slow objects down using small and big paper helicopters.

Storytime

This week we have been reading 'The Eyebrows of Doom' by Steve Smallman.
