9.10.26

Numeracy

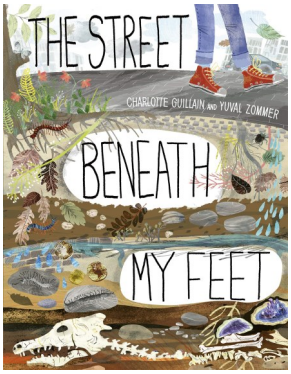

In Numeracy we have started a new aspect - Addition and Subtraction. We started the week by doing an assessment to see what we could recall and what we already know. The children then engaged in lots of practical activities and games to support their learning.

Literacy

This week in Literacy we have started reading a new non-fiction text called 'The Street Beneath my Feet'. The children enjoyed looking at the double-sided fold out book that took us on an adventure from the surface of the Earth through all the layers to the core!

We have been focusing on the difference between fiction and non-fiction texts and spent time in the library looking at books to establish their genre.

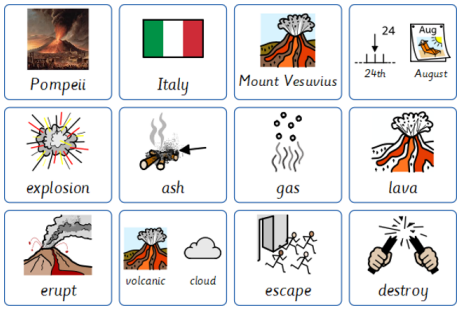

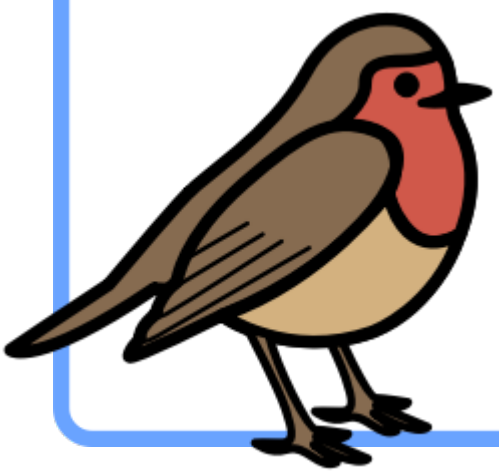

In Topic this week we have been focusing on earthquakes. The children have learnt how earthquakes happen when tectonic plates move in the Earth's crust and enjoyed making their own earthquakes happen by moving tectonic plates (books) and watching how the Earth's crust (play dough) splits and homes (building blocks) are effected .

We focused on a famous earthquake in Pompeii when Mount Vesuvius erupted. The children identified Italy on a map and described the key events. They also thought about how the people that lived there would have felt and what they would have done if they had been there when Vesuvius erupted.

Reminders!

Monday 11th: World Mental Health day. Children wear yellow or clothes that make them happy :)

Wednesday 13th: Wolf yoga taster session

Mondays and Tuesdays: PE lesson and Shropshire Cricket lesson
