

Remote

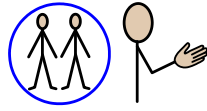

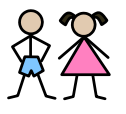

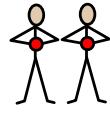

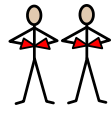

Learning

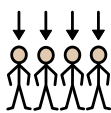

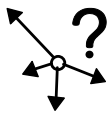

Code of Conduct

This code of conduct outlines what we are asking our children

and parents/carers to do whilst remote learning.

3

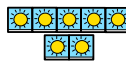

Where possible that all children working at home attend the three

online

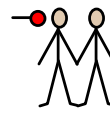

sessions each

week

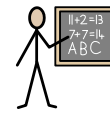

set up by

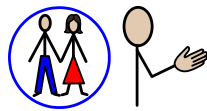

their

class

teacher.

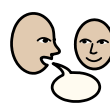

Parents/carers

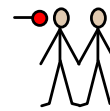

are asked

to inform

school

if

their

child

is

unable

to attend and

give

a reason

why.

• The online lessons are combined with our welfare checks of the

children.

If the

children

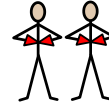

are not

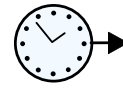

able

to attend

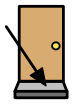

we

will

need to

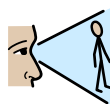

do a doorstep

visit

in order to

see

the

children.

When

attending the

online

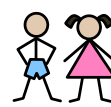

sessions

please

ensure that

children

are

dressed

and ready

to

learn.

Children should only log into the

sessions

with the

adults

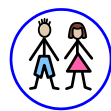

at

home

present.

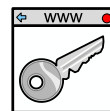

The older children

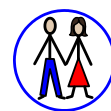

may

be logging in

unaided, but

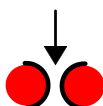

parents/carers

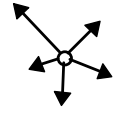

should

be

close

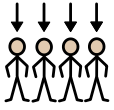

by.

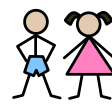

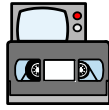

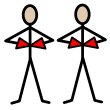

• Please ensure that the background is appropriate and where possible

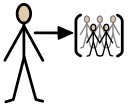

siblings of the children are not in attendance – this is to allow

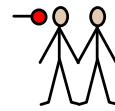

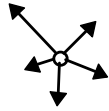

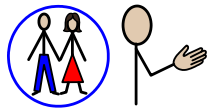

all the children in the session the chance to fully engage without distraction.

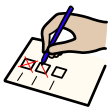

• We are asking that video's or photographs of the children

taking part in online learning does not take place.

• Parents/carers are asked, where possible to support their children

in completing the workpacks that have been sent home.

Thank you for working with us.
