

Hello everyone and welcome to another week of adventures from the hub. It has been another great week filled with lots of hard work, smiles and even a bit of spring sunshine!

Literacy

Literacy

In Literacy, we have been reading the fabulous story, *Handa's Surprise*. We sequenced key events from the story and created our own story maps.

We then tasted some of the delicious fruits Handa took to her friend, Akeyo.

Science

Science

More super Science this week! We are really enjoying our *sound* topic. This week, we have been investigating how the ear works to enable us to hear sounds.

We have also been exploring ways in which we can change the pitch of a sound.

Computing

In Computing, we have been learning how to program a microbit. We have now been able to apply the skills we have learnt to creating our own micropets.

History

The children in year 4 have been bringing History to life this week during a re-enactment of the Cinderloo riots with their link class. Both Toby and Isaac played their parts brilliantly.

We hope you all have a lovely weekend!
