# Class 11

Welcome back everyone – it has been a great first week filled with lots of learning and sunshine!

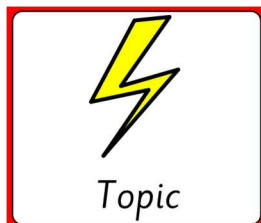

In literacy we have been working on our listening skills and started a new book – George's marvelous medicine.

In numeracy we have been started looking at frations, we have been focusing on equal and uneqaul parts to make sure we can chcek accurately if things haver been shared fairly!

We have started a new topic 'Bright Sparks' all about electricity – we thought about what things need electricity to work and what our lives would be like if we had no electricity. We all thought about lots of things we would miss!

In PE we have been looking at our throwing and jumping skills we had lots of fun hitting our targets with beanbags and jumping! Please can everyone have PE kit in on Tuesday and Wednesday so we can all participate comfortably.

Reminder that hats need to be in school to help everyone keep cool in the sunshine – thank you 😊
