

## Class 4!

In my topic this week Class 4 have been making use of the lovely weather through water play. We have been washing vegetables and splashing puddles using both our feet and hands! During outdoor school this week, Class 4 were challenged to lie down and tell the adults and their peers what they could see / hear. aeroplanes and birds were the most common answer 😊

In Phonics we have been recapping our sounds from the week prior to the Easter holidays. The children have demonstrated their great memory skills and produced amazing work.

In my wellbeing this week we looked at pictures of ourselves in funny costumes which Class 4 enjoyed, we then ranked which outfits we liked and disliked gaining valuable language having to explain why they liked/disliked an outfit.

We hope you have a great weekend and see you all on Tuesday. 😊
