

2.5.25

Class 7

Literacy

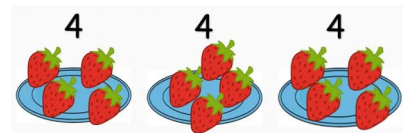

In Literacy this week, the children have been introduced to our new literacy text “The Emperor’s new clothes”.

They have enjoyed listening and exploring the clues to make predictions about the story.

Numeracy

In Numeracy we have been working on Multiplication and Division. Some children have been:

- Counting in 2s
- Adding equal groups
- Making arrays

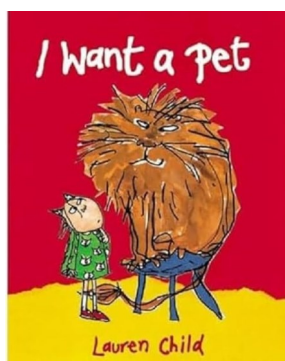

Topic

This week we have started our new topic ‘Freeze It’.

The children carried out a science experiment using ice cubes, the children made a prediction about what would happen to the ice when they put it into their warm hands. Lots of fun was had during the experiment and the children were noticing their ice cube melt and turn from a solid to a liquid.

Storytime

This week our story has been “I want a pet” by Lauren Child.
