

Class 4!

Class 4 have really enjoyed their Story Massage this week, all the children have engaged amazingly with this activity.

During Outdoor School, we were able to play hide and seek which the children found exciting and we all found some excellent hiding spots!

In Target Time, most of the children have moved on to new targets. As shown in the pictures the children have enjoyed taking part in physical target activities, looking at direction and estimating which has a larger amount.

Through Play and Leisure this week Class 4 have demonstrated their fine motor skills, building train tracks and racing trains/ cars around the track. We also had bubble play activity which the children enjoyed.

Have a lovely weekend and see you all on Monday! 😊
