

Class 4

During My Topic this week, we have been enjoying the warm weather making our own little 'beach' at Haughton School. We have been making sandcastles, having sand outside to play with and making huge bubbles! During outdoor school this week, we all participated in whole class games.

In My Wellbeing, Class 4 have been learning about our body parts. Class 4 each took a turn laying down on the floor, in groups the children communicated as many body parts as possible to each other.

In Targets, we have been ordering counters into groups of 3, matching objects to the correct number and working on learning directional skills i.e forward, backward, sideways.

Please can all parents/carers send their child in with PE kit next term as we have Sports day on the Friday 6th June.

Have a lovely week break, the children deserve it! 😊
