

Class 6

06.06.25

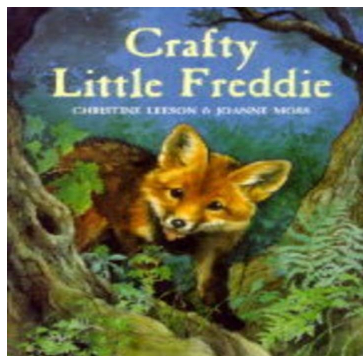

The children in Class 6 have had a fantastic week.

In numeracy, the children have continued with their topic based on length and height. The class have completed sorting exercises and word based questions to order objects from shortest to tallest.

In literacy this week, the children have completed their first of the month books and their focus was a picture of a summer scene. In SPAG, the children have listened to 'The Monarch Butterfly' poem and they have answered multiple choice questions and have matched different statements.

In topic this week, the children have continued to investigate their topic, 'Bright Sparks.' The children have been learning about conductors and insulators. The class have made predictions about objects they think are conductors and insulators. They have placed their ideas on a prediction sheet and they are going to conduct the experiment next week to see if their predictions are correct.

This week the children have been listening to 'Crafty Little Freddie' by Christine Lesson and Joanne Moss. The children enjoyed listening to the hunting adventures of Freddie.

Have a great weekend!
