

Class 2 News

This week in literacy, Class 2 have been helping Baby Bear make jam sandwiches for a picnic on the moon. We watched carefully to learn all the steps in the right order and then had a try at working together in a group to make our own jam sandwiches, Baby Bear's favourite! When we had finished we had a chance to taste them and then sequenced all the steps to create our own recipe. In maths we have been learning more about creating and describing repeating patterns.. In topic we have been learning how to collect data and sort information and made a pictogram and used a sorting grid to find out how we travel to school and how different vehicles move. In PSHE we have started our Change Me topic and thought about how we change as we get older. In RE we enjoyed creating some beautiful stained glass windows.

What a lot of learning! Have a super weekend, Love, Mrs Shannon and the Class 2 team x
