

Class 2 News

This week Class 2 have been super busy finding out how toys move. We have all enjoyed listening to the story *That is my Robot* and noticed that some robots can move when you push or pull them. We all made a pop up toy that can move when it is pushed or pulled and have enjoyed exploring other things that move with a push or a pull in our play and learn sessions. In maths we have been exploring 3D shapes and noticed that some can roll when they are pushed but others slide.

We have had our last swimming session so **we will not be going swimming** on Wednesday 22.10.25 but will switch to indoor PE instead. We are really looking forward to see you all in class for shared learning next week. If you are able to come but haven't returned your letter please just let us know.

Have a lovely weekend, Mrs Shannon and the Class 2 team.
