Newsletter

14.11.25

Badgers have had another super week. They have made some wonderful owl babies linked to our focus story and are enjoying retelling the story using the story props. They have been leaf printing and making leaf rubbings whilst learning about autumn. In Maths they have been making pictures using the 2D shapes whilst learning about them and what they are called. They have also been learning how to use the scissors to cut straight, wavy and zigzag lines too.

Enjoy your weekend, Mrs Jeffries and Badger's Class Team.
