

Topic

This week the children have continued our Explorers and Adventurers topic. This week the children have been learning about continents and have been on a trip to Attingham Park. The children have used the VR headsets to explore the different continents of the world and the continent that they live in. On our trip to Attingham the children used a map to explore the area and find different landmarks. The children all did extremely well and were excellent explorers.

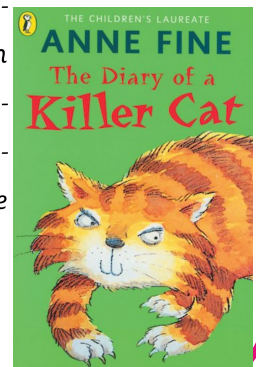

Numeracy

This week in Numeracy the children have started their focus on addition and subtraction. The children completed their assessment and will be focusing on the understanding of number bonds, fact families and using these to support their working out.

Literacy

This week in Literacy the children have continued listening to *Diary of a Killer Cat*. The children have been learning to retell the story and to correct problems in the text. The children have worked hard to find and correct mistakes. Next week the children will be taking part in some guided reading sessions to develop our understanding of what we are listening to.

P.E is on Mondays and Fridays.

Home work is Reading, Spellings and Literacy

Have a great weekend
