### Numeracy

This week we have continued to work on our Addition and Subtraction skills through a range of practical activities. Children have been learning to:

- Understand related facts such as  $2+3=5$  and  $20+30=50$
- Make number bonds to 10 and 20
- Subtract by counting back on a number line

### Literacy

On Friday, the children enjoyed our 'Be Our Guest' dinner party. They wore the party hats they made, shared the food that they had chosen, and listened to music. Some children enjoyed having a dance too!

This week we then continued reading the story 'Beauty and the Beast'. Children have learned facts about wolves, answered questions, and created wolf artwork.

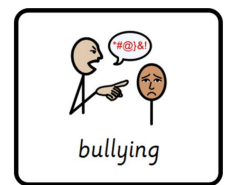

### Topic

This week, in our topic 'What's it Made Of?' we learned about plastic. We looked at a range of objects made from plastic and explored whether we could bend, twist, stretch, squash, and see through the objects. The children also sorted objects according to whether they are made from plastic or not. We then learned about the good and bad things about using plastic.

### PSHE

Our PSHE Jigsaw puzzle this half term is 'Celebrating Differences'. In this week's lesson, we talked about bullying. We read a story about a girl who was being bullied at school. The children ordered events from the story and identified what they should do if they experience bullying.

### Christmas Performance

This week, Class 7 have started to learn the songs for our Christmas Performance, 'Ralph the Reindeer'. They have been working hard to sing along and learn the Makaton signs.

### Storytime

This week we have been reading 'Supertato: Mean Green Time Machine' by Sue Hendra and Paul Linnet.
