

On Monday the children in Class 5 were excited to watch a visiting theatre perform Aladdin. They really enjoyed it and joined in really well.

Within Play and Leisure they continued to access the foot spas. The children have really enjoyed using, and sharing them again this week. They particularly liked all the bubbles that were produced!

In Topic we looked outside for signs of winter and took photos of them. Last week the children played with and explored ice and snow. This week they found catkins, dried brown leaves on the trees and soggy ones on the floor, berries and made footprints in the ground where the snow had melted.

The children had a great time at Outdoor School hunting for worms and other minibeasts. We found them near our puddles before looking under logs to find some more. Children also made puddles filling them by making a trail of water down guttering.
