Numeracy

This week we have moved on to learn about Place Value through a range of practical activities. Children have been learning to count within 10, 20, or 50.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50

Literacy

This week we have focused on the fable, 'The Thirsty Crow'. We read the story and children carried out an investigation to find out what would happen when they dropped pebbles in a container of water, like the crow did in the story. They talked about what they thought would happen and recorded their results. Children then ordered the events to retell the fable. We also read information about crows and created fact files.

Topic

In our Topic, 'From A to B', this week we learned about trains. Children created fact files about the different types of train and the person who invented the steam train, George Stephenson. They also sorted photos of trains from the past and present. The children had lots of fun getting the wooden train sets out to explore, and we also role played a train journey. Children enjoyed getting their tickets and finding their seat number, and some children had a turn at being the train conductor. We talked about the things that we could see out of our train window on the journey.

Storytime

This week we have been reading 'One Banana, Two Bananas' by Adam and Charlotte Guillan.

Outdoor School

Children enjoyed their first session in Outdoor School! A reminder to please provide wellies so that we can have lots of fun in the mud!
