

## Topic

This week the children have continued our new topic, Feel the Force. The children have been learning about gravity and friction this week. The children completed tasks that required them to experiment with both gravity and friction. When focusing on gravity the children made and experimented with parachutes and measured gravity using newtons. When focusing on friction the children completed an experiment to test different surface friction. They then used jelly and oil to change the friction on different surfaces.

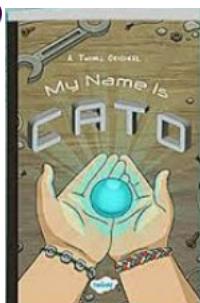

## Numeracy

This week in Numeracy the children have continued learning about shape. This week the children have been learning about 3D shapes. The children have been making the shapes and learning to recognise the shapes. Next week the children will be learning to recognise the features of 3D shapes.

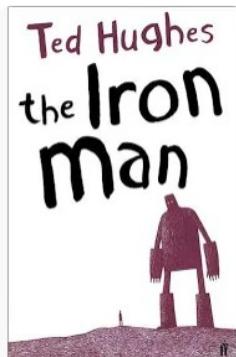

## Story Time

This week in story time the children have been listening to My Name is Cato.

## Literacy

This week in Literacy the children been listening to a new story, Iron Man by Ted Hughes. This week the children have been predicting what will happen to the Iron man and have been expressing their understanding of the first part of the story. The children have also been learning to use adjectives and similes to describing different robots and the Ironman. We will continue reading this story next week.

## Have a great weekend.
