

## **Class 4 – Newsletter – 30<sup>th</sup> January 2026**

We've had such a wonderful week in class, very busy with lots of fun activities. In English we have continued to learn about the fable of the boy who cried Wolf, the children loved following instructions to create their own wolves. In maths, they've been tackling new challenges with growing confidence, adding to 10s and bridging across 10. Our swimming session was another highlight, with the children becoming more independent in the water and clearly enjoying the chance to build their skills. There is no swimming next week as the pool is closed. However, we will be swimming the following week.

Forest School continues to be a favourite with everyone.

The children loved exploring the outdoors, taking photographs of the natural world around them and using these as inspiration for their Forest School diaries. Their writing has been fantastic.

We also had a lovely time cooking this week. Making iced biscuits was a big hit, and the children were so proud of their creations. They decorated and of course enjoyed eating them after forest school.

It's been a busy, joyful week, and we're really proud of everything the children have achieved this week. We're already looking forward to more adventures together next week.
