

*This week it was quite soggy at outdoor school. The children really enjoyed running under and threw a tarpaulin shelter as the wind blew it up and down.*

*As part of Sensory Explore we have completed lots of painting on both paper and tin foil using watercolour paints, threading large beads and finding items in slurpy.*

*We have been for walks around the school grounds to observe, by touch, smell, sight and sound, the different plants they could find from bulbs that are just coming up to the large trees within the outdoor school area.*

*Children had a fantastic time on Friday making Numicon biscuits as part of Number Day. They made them in the food tech room before letting them cool and decorating them in class.*

*On Friday we got a little caught out in the rain but we had a great time using the hair drier to dry off our hair!*
