Class 11

This week in class 11 we haven't let the rainy weather stop our fun. We have played out in the rain using the parachute as a giant umbrella and splashed in puddles. We have explored our senses of smell, sight, touch, and smell with yellow fruit including lemon, banana and mango. Some of us really loved the lemon and some of us weren't so keen! We went on a treasure hunt around the school grounds finding and matching different plants, looking at flowers and leaves really closely. Number day was great fun we enjoyed lots of number activities, songs and games to consolidate our learning about numbers. We have been using our talking mats to talk about our feelings using the visuals and the colours from the zones of regulation and lots of us are thinking really carefully about the choices we make. The coaches that have been coming in to school to teach us cricket skills were so impressed this week with how many of us are joining in and using the bats to hit the ball accurately—well done class 11!
