

Class 8

13.2.26

Literacy

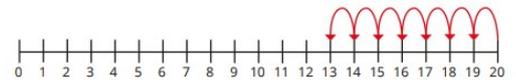

In literacy we have been writing our own fables, with the moral teaching 'slow and steady, wins the race'. We have had lots of fun painting settings, drawing two characters and a resting object to support us with our fable writing. We have also been using our creations and answering a range of questions to support us with the writing of our fables.

Numeracy

In Numeracy some of us have continued working on addition and subtraction. We have been:

- ◆ Solving systematic bonds within 10
- ◆ Solving number bonds within or to 10
- ◆ Adding together
- ◆ Finding a part
- ◆ Subtracting within 10
- ◆ Solving subtraction sums by counting backwards

Some of us have continued working on length and perimeter and have been:

- ◆ Adding and subtracting lengths

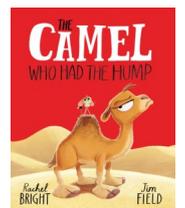

Topic

In topic we have continued thinking about taking a journey on a boat to travel from Haughton School to Frace. We have listened to information about boats and labelled the parts. We have also been thinking about the most appropriate type of transport for a longer journey e.g., Haughton School to America. We talked about what an aeroplane is, looked at images of different aeroplanes, moved like an aeroplane and had lots of fun making our own straw aeroplane.

Storytime

This week we have been reading 'The Camel Who Had The Hump' by Rachel Bright.
