

Class 4 Newsletter – 27/02/2026

We've had a busy and exciting week in class, full of creativity, hands-on learning, and plenty of fun. In Literacy, the children created their own shape poems, developing descriptive language skills. They all produced some beautiful poems.

In maths, we focused on counting in 2s, 5s and 10s. Learning that we can count groups to count quicker. This is the basis of multiplication.

Forest School brought lots of laughter as we played muddy Pictionary. Using sticks, mud and natural materials, the children drew clues for their teammates to guess. It was wonderfully messy and full of teamwork.

In cooking, the children made colourful fruit kebabs. They practised safe cutting skills, explored different textures and flavours, and created healthy snacks to enjoy.

It's been a fantastic week, and the children have shown great enthusiasm in everything they've done. Have a wonderful weekend and I will see you all at parents evening.
