

## News from the Hollinswood Hub: 27<sup>th</sup> February 2026

Hello everyone and welcome to another week of hard work at the hub. The children have made a great start to all of our new topics and I have really enjoyed hearing about their exciting half term adventures.

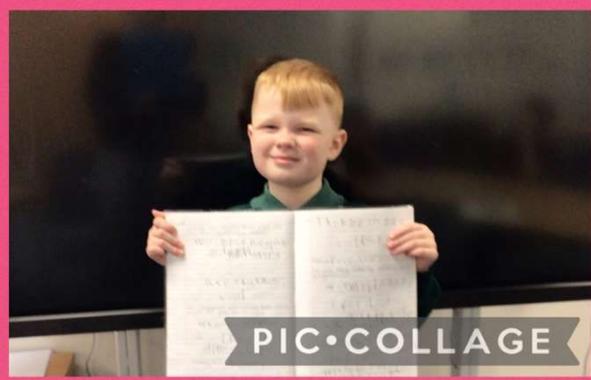

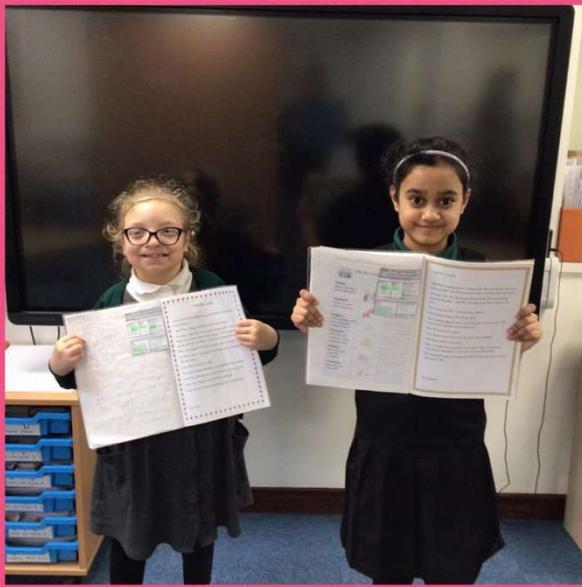

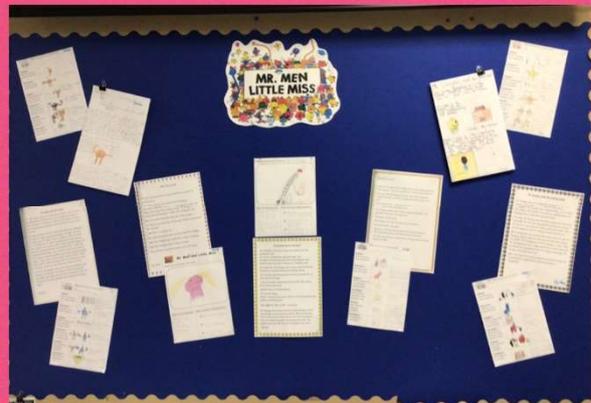

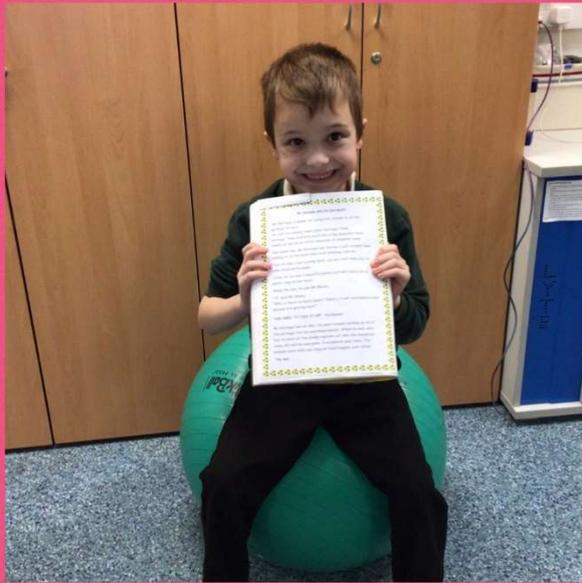

Our new Maths topic for this half term is statistics. We have been learning how to collect, present and interpret data using charts, tables and graphs.

PIC•COLLAGE

In Literacy, we have been enjoying reading some of the Mr Men and Little Miss stories. We learnt all about their unique characteristics and then created our own characters. The children went on to write their own stories which were all fantastic! I love to see how everyone is so proud of their work.

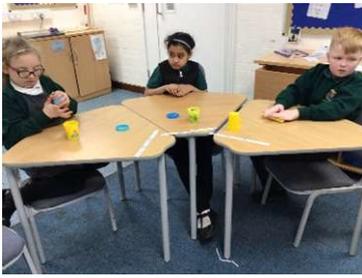

**Next Week:** We will be sharing our work as part of our World Book Day celebrations.

In Science, we have started our new topic learning all about forces. This week, we have been investigating pushes and pulls.

We had lots of fun in Music this week when we worked as a team to put movements into our singing. It was quite hard to keep in time with the music, but we got there in the end.

We are also very proud of Jake this week who was crowned *King of the orchestra* for his super listening skills and amazing playing.

**Well done, Jake!**

We have some very talented artists here at the hub and we are all very proud to see our work displayed in the corridor of Hollinswood Primary.

What a great start we have had to the new half term!

Everyone as settled back in to school really well and we have already seen lots of fabulous work both in Base 15 and our link classes.

**We will be back with more news next week. Have a great weekend.**
