

Wow!! What an amazing and busy week we have had!

This week, the year 2 children joined their link class for a history walk around our local environment. The children walked sensibly and listened carefully as they observed their new surroundings.

In Science, we have been exploring and thinking about the early signs of Spring. We have noticed, the milder weather, buds on trees and spotted the return of some insects. We have also enjoyed hearing the birds singing and feeling the warm sun on our faces. We have started to tidy and prepare our raised beds ready for planting, before planning where we would like our new 'Opal Play' equipment to go. While we wait for the ground to dry out, we have taken inspiration from the Pit Mound and started to build our own den in the hub garden.

In our hub P.E, we have continued to work well as a team and used a carousel of activities to support and improve our core and upper body strength, motor planning and coordination. We have also used exercises to develop our visual-motor and crossing the midline, through a range of repeated movements.

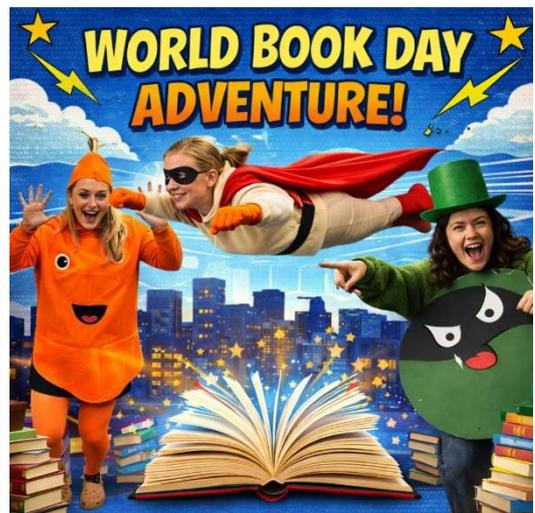

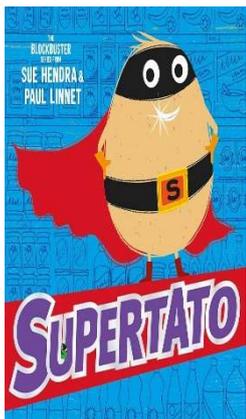

In music, we have continued to use sign, singing and movement to move to the music.

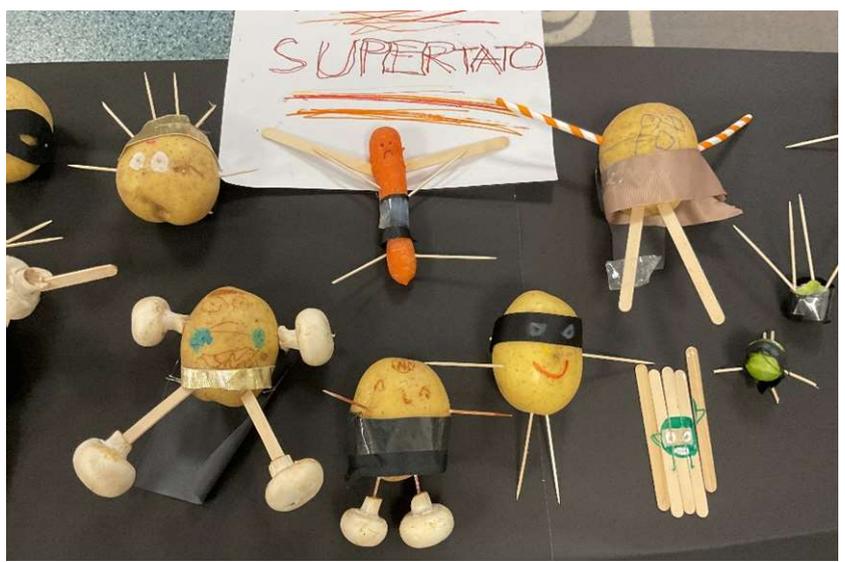

WORLD BOOK DAY

5 MARCH 2026

On Thursday, we had an amazing time celebrating world book day. We dressed as our favourite book characters, enjoyed a Supertato style phonics and maths session, followed by an afternoon of sharing books and stories with Base 13- a Year 4 class. We finished the day by making our own model vegetable characters with the year 4 children.

Thank you for all

your

hard work!

Have a

fabulous

weekend!
