

# SPRING TERM NEWSLETTER

**March 2026**

We have come to the end of another busy term. We've even had some brief moments of sunshine and blue skies! Let's hope there are many more to come!

This term has been filled with fun and engaging learning experiences. Every week there has been something exciting going on – World Book day, to Red Nose Day, trips in the community to enhance the learning within the classroom and lots of active and practical learning within the classrooms. It is always wonderful to see the children excited and engaging in their learning.

Our children who represented Haughton at Telford Sings were wonderful! It is not easy standing up and singing in front of so many people, but their enthusiasm shone through. Well Done!

I was also immensely proud of the children who met with our School Improvement Partner when she came into school, to share their thoughts and opinions on their education and school life. She definitely gained clear and detailed overview of the children's thoughts and feelings!

We are very much looking forward to our new sensory spaces that are being created over the Easter break and know they will be hugely beneficial for the children.

## **Car Park**

Thank you to the parents who using the walkway under the canopy at the start and end of the day. This helps to ensure everyone's safety, as standing and walking on the chevrons has led to a few safety concerns and also delayed buses leaving.

We know the car park is very busy at the moment, please be assured we are considering ways to ease this.

In the meantime please only park on the carpark if you/ your child are unable to walk the distance from parking in the local area. Please note **'The Venue'** next door are happy for parents/carers to park there for drop offs and pick ups, so please the car park there when possible rather than parking on the school car park.

Please ensure you are not arriving on the carpark before 2:30pm, arrivals before this make it difficult for staff out on trips and those who move between sites, it also is very distracting and confusing for children in the classrooms that face out onto the carpark.

Please do not drive IN the OUT gate – it is extremely dangerous.

**Thank you for helping us keep everyone safe.**

## **Have a wonderful break**

**We look forward to seeing the children  
back on**

**Tuesday 14<sup>th</sup> April**
