Class 1 News

What a super week of weather, the sun has had it's hat on whilst we have been learning.

Last week, in Topic, we worked together to plant cress seeds. During the week we continued to help the cress grow by watering them. Today we have been exploring how it is different. It was great to hear some of the comments; "Look it's tall", "Cress is a healthy food", "Can I try it?". Other children explored it using their touch and smell!

Have a wonderful weekend!

Mrs Ratcliffe, Mrs Cox and the Class 1 Team
