

Badgers have had a wonderful week busy learning and having fun. In Maths they have been making repeating patterns using the 2D shapes. Outside the children have worked as a team to build a fantastic marble run and they have been learning how to take turns and do good sharing. They have been excited watching their bean growing over the last week and have been busy recording the changes in their bean diary. **Please remember to provide a swimming nappy if your child needs one every Wednesday please.** Enjoy your weekend, Mrs Jeffries and Badger's Class Team.
