

Badgers

Newsletter

8.5.26

Badgers have had a great week. They have planted their beans outside in the large pots along with their sunflowers. We found a huge spider and Freddie held it carefully and we put it in our plants and we watched it scurry away. We listened to songs and stories about spiders and watched how they make their webs too. The children are always busy leading their own learning in Badgers and some children are enjoying making animal enclosures, whilst some children are busy making their own books about insects. Enjoy your weekend, Mrs Jeffries and Badger's Class Team.
