

Badgers have had another great week. They have been developing their colour mixing skills and painting sunflowers. They have also made sunflowers using collage materials. They have made beautiful pictures using 2D shapes. They have been learning about the sound t and consolidating s, a learning which words begin with these sounds and how to form them correctly. They are taking care of our many plants growing in Badgers garden and looking out for all of the insects visiting our garden too. Enjoy your weekend, Mrs Jeffries and Badger's Class Team.
