

Class 4 Newsletter – 15/05/26

Dear Parents and Carers,

We've had a busy week in class, and the children have enjoyed so many rich learning experiences. In English, we have been exploring poetry and having fun listening for **rhyming words**. The children loved spotting words that sound alike and trying out their own ideas.

In maths, we have continued learning about **halves**, practising how to share objects, shapes, and quantities into two equal parts. The children showed great enthusiasm and growing confidence as they worked.

Our topic, *Green Fingers*, has also continued, and the highlight of the week was our wonderful class trip to the **garden centre**. The children were fascinated by the plants, seeds, and tools they saw and asked thoughtful questions throughout the visit.

In cooking, the children had a fantastic time making cookies. They measured, mixed, shaped, and of course enjoyed tasting their creations. During Forest School, we went searching for **minibeasts**, looking under logs, leaves, and stones to discover the tiny creatures living in our outdoor area. Their curiosity and teamwork were lovely to see.
