

## Shared Learning

Thank you to everyone that could make our shared learning event this week. I know the children all truly enjoyed sharing the activities and their treasures with you. It was great to see everyone engaged in showing off their work and the school. Our next topic after half term is a Science based topic called Land, Sea, Sky. In this topic the children will be learning about these different habitats and the creatures within them. This topic will include a visit to the Field Studies Council at Preston Montford where the children will explore these different habitats first hand.

## Numeracy

This week the children have continued to learn about Weight and Mass. The children have been learning to identify heavy and lighter items as well as measuring Mass in standard and non standard units

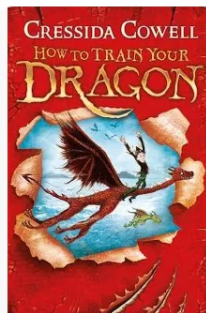

## Literacy

This week in Literacy the children learnt about Tutankhamun and Howard Carter. The children pretended to be Howard Carter and drew what they thought would be Tutankhamun's tomb. The children then used adjectives to describe the tomb with some children hunting for synonyms for their adjectives.

## Story Time

This week in story time the children have been listening to How to Train your Dragon by Cressida Cowell.

Our last swimming session is on Wednesday the 3rd of June.

Have a great half term.
