

In Numeracy this week children have been exploring 2D shapes. They have sorted and matched like shapes, named them and looked at how many sides and corners they have. Other activities included drawing around them, painting and printing with them and making pictures with the plastic shapes. The children really enjoyed washing the shapes outside and naming them after the printing activity.

The children were really excited to explore some of the new Outdoor School equipment and resources. Their favourite was a large lavender plant and some rocks.

In Cooking this week children made smoothies. They really enjoyed tasting the different elements prior to blitzing them together, especially the ice cream!

We are looking forward to Sports Day on Friday and have been practicing in our PE sessions.
