

One of the highlights of the week was our imaginative bus role-play. The children took turns being the driver while the adults became the passengers. With a video on the screen that mimicked a real journey, the children confidently announced their destinations and made sure everyone was dropped off at the right place. It was a brilliant mix of creativity, communication and fun.

In Topic, we explored the different parts of plants that we can eat. On Wednesday, the children designed their own salads using ingredients from various plant parts, leaves, fruits, flowers and bulbs. On Thursday, they brought their designs to life, chopping and preparing beetroot, tomatoes, cucumbers, onions, radishes and lettuce. Their chopping skills, which we've been practising throughout the year, were fantastic to see in action.

We also set up a herb station where the children could chop, smell, feel and taste a range of herbs. This sensory experience sparked lots of curiosity and conversation.

Have a lovely weekend,

Mrs Clarke and the class 9 team. 😊
