Class 3 News

Our Literacy book this week has been *Shark in the Park*, the children have thoroughly enjoyed listening to the story, answering questions about the characters, and discussing what was happening in different parts of the story. The children had great fun making their own DIY telescopes following visual instructions. They then used their telescopes to explore the school environment, looking carefully at what they could spot and sharing their discoveries with their friends.

In phonics this week, the children have been practising their tricky words in a fun and engaging way by writing them in shaving foam. This sensory activity helped the children focus on correct letter formation, size and orientation, while developing their confidence in writing. The children loved getting hands-on with their learning and were very proud of their efforts.

With another hot week of weather, we have been making sure everyone stays cool while still having lots of fun. The children particularly enjoyed our water play activities, which provided a wonderful opportunity for exploration, cooperation and imaginative play.

Thank you for your continued support, and we hope you all have a lovely weekend!
