Ladybirds

Class

News

We have had another positive week in Ladybirds class. The children are enjoying engaging with the environment and the learning opportunities on offer. This week we have continued to explore the topic of 'Senses' and children have interacted with a range of activities linked to our current story, 'Ketchup on Your Cornflakes'. We also enjoyed spending some time in nature during Outdoor School and we worked together to collect natural materials to make a bug shelter. In Cooking, the children developed their spreading skills by making pizzas. We also thought about the feeling of anger in our My Wellbeing lesson, and we explored how our body feels when we are angry.

Have a lovely weekend and we look forward to another exciting week!
